I notice that xmms has a shortcut Ctrl+Shift+S to show the song location dialog. Does Winamp have a similar shortcut? I notice Winamp's cursor hovering in the upper right corner of the window by default. Is there a hotkey to show the location dialog? A: Ctrl+Shift+S works for me in XMMS. File > Edit Menu... > Preferences > "Settings" tab. You have the option of using the main interface (most users) or the plugin interface (in my case). You can then add shortcut for all your plugins by going to the tools menu and selecting "Add new command". There is a "get list of commands" dialog that'll show you the keyboard shortcuts for all of Winamp's plugins. The OS X version uses the UI browser as a plug-in for that, but I guess it's the same for Windows. Roles of Y-box binding proteins in cancer. The RNA binding proteins Y-box binding protein 1 (YB-1) and the splicing factors YB-2 have emerged as multifunctional oncogenic drivers. YB-1 and YB-2 have distinct yet overlapping expression patterns in different tumors and are both present in pre-mRNA splicing complexes. Induction of YB-1 and YB-2 in different mouse tumor models alters tumor progression through distinct mechanisms and results in unique transcriptional signatures. However, there is also a considerable overlap in the biological functions that they exert in normal and cancerous cells. The ability of YB-1 and YB-2 to regulate mRNAs in a cell type-dependent manner, and its impact on the regulation of gene expression and alternative pre- c6a93da74d
